

The Daily Gazetteer.

THURSDAY, AUGUST 29, 1745.

Naples, August 10.

H E King has resolved to send a Reinforcement of 3000 old Troops to the Army of the Infant Don Philip, his Brother: They are to be composed of Two entire Battalions of Swiss, all the Grenadiers of the several Regiments in our Service, and Ten Men of a Company besides.

It has been resolved to form the Militia in the Island into Regiments, after the Manner in which it is at present. His Majesty has constituted a particular Council, for the better and more speedy Regulation of this Business; of which the Duke de Castro is to be President. We have lately transported several Persons of Distinction, condemn'd by the Triumvirate for the Cognizance of Disaffection, to the Places for their Confinement; and we doubt they will be followed by many more, who are at present in Prison on Suspicion only.

On the 14th, the English have begun to sell the Goods taken on board their last Prizes. Several Gallies that were here, sailed a Day or two in order to cruise upon the Genoese; and we expect it will not be long before they return with a considerable Number of Prizes, as they had an exact Account of the Number and Strength of the last Convoy from Naples to Genoa. According to our last Letters from that City, they are in great Confusion, most of the Family having withdrawn their Persons and Effects, in fear of a Bombardment. The Nuns in the Monasteries that are most exposed, have taken the same Measures for their own Security: And this Flight of the Inhabitants occasions such a Decay of Trade, as produces nothing but Murmuring and Complaints. In the mean time, the Government are busy in erecting new Works upon the Coast; and for a Supply of Ordnance, have taken in three Weeks 300 Pieces of Cannon out of their Arsenals. It is likewise said, that they have sent Commissions for raising three new Regiments.

Munich, August 20. The Count de Sinheim returned on the 17th from Vienna, and on the 18th went to Nymphenbourg, in order to report to his Electoral Highness the Success of his Negotiation, and was very graciously received. His Excellency has since disposed of a Thing for his approaching Journey to Frankfort, which it is believed will now take Place in a few Days. The Ministers of the Courts of Versailles and Vienna, have lately had some Conferences with our Ministers; but with what View, or with what Success, is more than we can say. The Minister of the King of Prussia, who resided here for some Time, and who was extremely well received at Court, is set out from hence for Frankfort; and it is thought will proceed from thence to Mannheim, being charged with a Commission of Importance from the King, his Master, to the Elector of the Palatinate.

Cassel, August 26. The First Division of the Hessian Troops, in the Pay of Great Britain, began their March on the 22d, under the Command of Major-General Stanbach; and are to take their Route thro' the Bishopricks of Paderborn and Munster. The Second Column, commanded by Prince Frederick of Hesse in person, will begin its March on the 2d of next Month; and the Chancery and Hospital will march therewith. The Third Column will begin to move on the 10th or 12th, and a certain Number of Field Pieces attend each Column. This is look'd upon to be the finest Corps of Troops that ever marched out of this Country; and it is believed from the Pains taken to recruit the several Corps, still left here, that another Body of 6000 Men will enter very speedily into British Pay, and be likewise employed in Brabant.

Frankfort, August 29. There never was seen so great a Concourse of Persons of Distinction at any Election, as at the present; and it is incredible to what a Height the Price of Lodgings is risen here. On Monday last the Elector Palatine's Ambassador delivered the Second Memorial to the Dyet, in which he demands their Interposition for removing the Austrian Forces out of his Territories, and insists farther on his having a Categorical Answer. We know very well what is meant by this, and that his Serene Highness will leave no Means untir'd to retard the Election; yet, notwithstanding the Endeavours both of his Minister and the Minister of Brandenburg, we make no Sort of Question that the Emperor will be declared on the 21st of next Month, if not sooner; and that he will be crown'd here on the 4th of October, being the Name Day of the Grand Duke; against which Time the Archbishop of Saltz-

bourg, the Bishop of Wurzburg, and several other Prelates, are expected here, as well as many Princes of the Empire.

Paris, August 27. We have just now received from Flanders a Courier, with the important News, that Offend surrendered on the 23d, which occasions great Joy; and in some Measure makes amends for the Disappointment we were under, at finding all that had been published here, from London, absolutely void of Foundation. We have likewise Advice from Flanders, that Count Lowendahl having sent back 18 Battalions to the Grand Army, is marched with the rest of the Corps under his Command to besiege Nieuport, which cannot hold out long; and it is farther reported at Court, that the Count de Clermont Gallerande, with 30,000 Men, is to invest Mons; with the taking of which City the Campaign will end.

Antwerp, August 30. Orders have been given for demolishing a great many Houses that stand in the Plain before our Citadel, that nothing might interrupt the View from the Place. A great Detachment arrived here this Morning, in order to reinforce our Garrison. The Army of the Allies remain in the same Situation, and will do so till the German Succours arrive, which it is thought will be in a Fortnight; and that they will be then in a Condition to oblige the Enemy to quit the Neighbourhood of Brussels.

SCOTLAND.

From the CALEDONIAN MERCURY;
dated Thursday, August 21.

The Mail from Inverness, which came in last Tuesday, brought several Letters, with Accounts of what has been lately transacted in the West Highlands. All these Letters agree, that the intended Commotions in these Parts will be prevented, or, at least, very speedily quashed, in the End.

A Letter from Inverness, dated August 16, says, Several of the Camerons and Macdonalds are in Arms, but there are no Foreign Forces, or Councils, among 'em; so that any Commotion these mad Men occasion, must very soon be quashed. Sir Alexander Macdonald dined on Monday last with the Lord President and the Laird of Macleod. Sir Alexander has given all Assurances, that neither he, nor any of his People, shall aid or abet the Invaders of our Country. On the contrary,

Another Letter says, the young Chevalier is certainly landed in the Highlands with about 40 Men, and is seemingly joined by 500 Clans. I am told they are commanded by General Macdonnell, Uncle to the Earl of Antrim; That a Detachment of the Rebels having last Week come down to Ranach, carried along with them several People to accompany them in their distracted Purposes to the Hills. But all is not sooth that's said. However, they are more like to pay the Price of their Temerity before the Harvest begins, than do much Mischief.

A Third Letter says, a Body of 24 of the Rebels came lately into the Country of Ranach, and would have carried along with them 100 Men of the Inhabitants, in order to make them Accomplices, with the same ease as they use to drive off the Cattle. It is said a Detachment of them have made a Captain of the Army Prisoner two Miles from Fort Augustus. Their Numbers are uncertain, as they stand dispersed for want of Vires in any one Place. It were wish'd they were twice as numerous as they are, that they might be necessitate to eat up one another. However, they must be starved to Death with Cold, having nothing to cover them in the Night but the Canopy of the Heavens.

Two Letters from Fort Augustus and Fort William, dated the 14th and 16th Instant, insinuate Apprehensions of Visits, as on Friday and Sunday last, from the Rebels.

A Letter from Perth says, by the Dispositions making, they conjectured that the Hon. General Cope, with the Army, would encamp Yesternight at Taybside, 12 Miles West of Dunkeld.

Among the Reports current, one is, that they have erected a Standard, the Motto, *Tandem Triumphans*.

We are assured that the Fox and Happy Janet Men of War, which sailed lately from the Frith, have steered North about; and that they have Orders to continue their Course till they met the two Sloops of War which sailed lately from the River Clyde, being to act in Concert against the Insurgents in the North-West.

On Tuesday and Yesterday the whole Infantry, lately encamped at Stirling, and a Squadron of Dragoons, with the Artillery, &c. crossed Stirling Bridge, on their Route for Crief. Only Three Women are allowed to attend each Company.

We hear that a great many Coehorn Shells are to be sent after the Army from the Castle of Edinburgh; Implements for driving an Enemy from Fastnesses, by setting Heath, &c. on Fire about his Ears; and also 450 Shells.

A great Quantity of Camp Equipage from the Castle passed through the City Yesternight, for the Use of the Army.

Yesternight Major Mackay, of the Hon. Col. Ogilthorpe's Regiment, who has been some Time in the North-West, arrived here, as we are informed, with Dispatches concerning the Transactions there.

Yesterday his Grace the Duke of Argyll set out from Holy-Rood House for London.

The Hon. Col. Lascelles is arrived here from South Britain, and sets out this Day, to put himself at the Head of his Regiment, now under the Command of the Hon. General Cope.

The coming of a Sardinian Minister into the Empire, and visiting, as he has done, the Courts of Munich, Dresden, and Mannheim, occasions much Speculation, especially at this juncture; but it is hoped the ensuing Election will have a happy Effect on the Politics of his Master.

Dr. BATEMAN's Original and Only

True Wholesale and Retail Warehouse at the Printing Office, facing the South Door of Bow Church, the lower End of the Church Yard, from Chesham, London.

THE Daily Success which has constantly attended the taking Dr. BATEMAN's

PECTORAL DROPS, in the several Distempers of Coughs, Pains in the Breast, Limbs, and Joints, has given them so universal a Character, that few Families are to be found without them in their Houses. Besides the Diseases above-mentioned, there is no one Medicine, since the Discovery of the Art of Physick, that will give a speedier Relief and Ease in all Rheumatick Pains, Gout, Stone, Gravel, Colick, &c. Innumerable Instances might be given of the happy Effects thereof, but we chuse to refer to a Book, call'd *Of Short Treatise of the Virtues of Dr. BATEMAN's PECTORAL DROPS*, given gratis, at the Warehouse above said; where all Shop-keepers, &c. in any City, Town, or Village, where these Drops are not already sold, may be supplied, with good Allowance to sell again, by directing the sending to the Patentee,

BENJAMIN OKELL,
Wm. and OLIVER DICKEY.

87 The surprizing Encouragement, which by constant Success, these most valuable Drops have, for upwards of Twenty Years, met with, not only in Great-Britain and Ireland, but in all Parts of the West-Indies, and other Foreign Countries, has lately induced several mean and mercenary Pretenders to counterfeit them; and by imitating our Seal, Bill of Directions, and Show Boards, with our Method of Advertising, as near as they can, or dare to do, without making them the same, thereby impose their dangerous Compositions upon the unwary and credulous Shopkeepers both in Town and Country, for the True and Genuine Sort.

The Patentee and Company therefore, in Gratitude for the universal good Reception they have so long met with, and for the Safety of those who for the future may be desirous of using the same, think themselves absolutely obliged to give this necessary Caution;

Which they earnestly request may be observed,

That the Bottle they buy is not only seal'd with the Bottle-Head, but has also their Words round it, BY THE KING'S PATENT, as in the Margin; and also that the Names of the Patentee, Benj. Okell, William and Oliver Dickey, be in the Bill of Directions given with each Bottle; without which, you may be assured it is a notorious Counterfeit, and may be of the most dangerous Consequence.
